

# Comet-like Patrician Shoes Have Startled the World of Dress

You who are particular about your dress, can have shoes that conform to every whim of fancy if you buy Patricians.

The foot of every woman who wears them will look its best—for master craftsmen in making them have contributed their utmost to produce a shoe of exceptional style and Patricianlike individuality.

No matter what leather you prefer—what style has struck your fancy—you can find here the shoe most becoming to *your* foot—besides, there are new designs (whispers of fashion) which have never been shown in Richmond before.

Custom-mades could be no better than these shoes—the product of master shoe-makers.

You can secure here the shoes that will harmonize with any gown.

The soft leather makes Patricians as pliable as a glove, and this is the secret of their long wear. Shoes that harass your feet, quickly wear out at the points of discomfort.

In Patricians there is both ease and dashing style.

These shoes have become the sensation of

shoedom. They have captured the fancy of well dressed women from coast to coast. No other shoe compares with it.

They have become the pride and envy of thousands. The men who can make Patricians are few—hence, not more than one woman in a thousand can be supplied.

Monday morning, we want you to inspect them, if for nothing more than to see the handiwork of the craftsmen who make them.
